The official program for the Meiji University and University of Nevada Las Vegas basketball game is published by George Yoshinaga and Associates in cooperation with the University of Nevada Las Vegas Athletic Department.

Tonight's Game

Most Americans are well aware of Japanese imports—Toyota and Nissan cars, Sony TV's, Seiko watches—what they are not as familiar with is Japanese basketball, which Las Vegas sports fans will be seeing for the first time when Meiji University's team take to the floor of the Thomas & Mack Center tonight to meet the awesome strength of UNLV's Runnin' Rebels.

How does a game like this go from the drawing board to reality between schools located half-way around the world from each other?

Ironically, the Meiji vs UNLV basketball game was an off-shoot of Japan's national sport of sumo.

Somewhere between the main course and dessert, the subject of having a Japanese university team break into the conversation as a possible opponent for the Runnin' Rebels. Yoshinaga said he would put in a call to Japan to find out if he could line up a representative team for UNLV and before he left Las Vegas, the game with Meiji was made.

It will be the first time a Japanese university team will play against a major American collegiate basketball power. The Japanese national team, and several "all-star" teams have toured the U.S. but as far as a single Japanese university team playing against a major U.S. team is concerned, tonight's game is a historic "first."

Basketball observers in Japan consider this game a major breakthrough for basketball among Japanese university teams. Other universities in Japan will be looking closely at the results, not so much from the finals points posted on the scoreboard, but how the Japanese players react to facing one of the best teams in America, coached by the winningest coach in collegiate basketball, Jerry Tarkanian.

Basketball in Japan was among the best in the Orient for a number of years in the 50s and 60s, but another sport came onto the scene and many potential young athletes, eyeing the chance to play in the Olympic Games, opted for the other game—volleyball.

And, volleyball did, indeed, become the top sport for Japan in world competition. However, in recent years, many of the younger players are returning to basketball and Japan is slowly returning to the top in the Orient.

Several post-season tournaments, featuring top American college teams, have heightened the resurgence of interest among the younger athletes, as they have had the opportunity to see some of the best players in the world participate.

A MESSAGE FROM UNLV PRESIDENT DR. ROBERT C. MAXSON

Dear Friends of UNLV:

Please let me take this opportunity to welcome you to the first exhibition contest ever between UNLV and Meiji University. It is a pleasure to host the defending national champions of Japan in a contest which we believe will be an exciting one.

The Department of Intercollegiate Athletics is pleased to welcome Meiji University, the defending intercollegiate champions of the country of Japan, to a first ever exhibition contest between the Japanese Intercollegiate Basketball Champions and an NCAA Division I basketball program. This department is proud to have been selected the institution to inaugurate what is anticipated will be a continuing and long-standing relationship with our Japanese friends.

Special thanks are due to Ms. Lyn Davies of the Riviera Hotel and Mr. George Yoshinaga for their involvements in assisting this contest to come to fruition.

This department appreciates the continuing support of "Runnin' Rebel" basketball fans and anticipates a highly exciting Meiji vs University of Nevada, Las Vegas basketball contest and an outstanding 1984-85 men's varsity basketball season.

Sincerely,

~mel,

Department of Intercollegiate Athletics
University of Nevada, Las Vegas

It is both a honor and privilege for me to extend greetings to the University of Nevada, Las Vegas and to the people of the City of Las Vegas, on behalf of Meiji University. The Meiji University and its basketball team are grateful that they have been given this opportunity to play against one of the great teams in America. It will be a great experience for our team and we hope that their participation will create a spirit of goodwill between our institutions of higher education. We are at Meiji feel that sports is an important facet in developing young students and being able to travel abroad certainly enhances this process. Perhaps, one day, the basketball team from the University of Nevada, Las Vegas, will be able to travel to our country to experience our culture and the same time we will be able to reciprocate the hospitality extended to our young men on this trip to the U.S.

Shinichi Yamamoto
President, Meiji University
Jerry Tarkanian...More Than Just A Coach

Leonard Gray (Seattle Supersonics). UNLV alumni in the pros at one time or another include: Ricky Sobers (Chicago Bulls), Larry McDonald (Houston Rockets), Eddie Owens (Buffalo Braves), Jackie Robinson (Seattle SuperSonics), Sam Smith (Chicago Bulls), Glen Gondrezick (Chicago Bulls), and Reggie Theus (Chicago Bulls, Kansas City Kings). In addition, four members of the 1983-84 Rebel squad were selected in the recent college draft. They are Jeff Collins (Phoenix Suns, 4th round), Danny Tarkanian (San Antonio Spurs, 8th round), Eric Booker (Utah Jazz, 8th round), and Paul Brozovich (Golden State Warriors, 8th round).

In Tarkanian's 11 years at UNLV, a total of 23 players have been drafted by the NBA. Six players alone from the 1976-77 team were drafted by the NBA—an NCAA and NBA record.

Tarkanian has been honored with other coaching duties throughout his stellar career. He coached in Ecuador for the People-to-People Sports Committee in April and May of 1968 and also coached the Junior College Olympic Team that same year.

As a native of Euclid, Ohio, Tarkanian attended Pasadena City College before graduating from Fresno State in 1955. He then went on to earn his Bachelor's degree—with honors—in Educational Management from Redlands University.

Tarkanian and his wife Lois, the former Lois Huler, reside with their four children—Pamela, Jodie, Danny and George—in the Charleston Heights Section of Las Vegas.
**New Rebs Best Since 76-77 Squad?**

Rarely when a team loses four of its top nine players to graduation is there much cause for optimism, but University of Nevada, Las Vegas Coach Jerry Tarkanian's 1984-85 Runnin' Rebels are an exception.

Once again, it appears that the Runnin' Rebels will live up to their nickname as this will be one of the quickest UNLV teams that Tarkanian has coached. Moreover, the fact that this squad is filled with good shooters may make it comparable to Tarkanian's 1976-77 Rebel team which averaged 112 points per game and averaged 112 points per game and 2,000 rebounds per game.

**Jerry Tarkanian's 1984-85 Runnin' Rebels**

Despite the losses, Tarkanian, the coach of the year, about his team's ability to match the school's annual success in the 1984-85 season. According to Tarkanian, he has coached. Moreover, the fact that this squad is filled with good shooters may make it comparable to Tarkanian's 1976-77 Rebel team which averaged 112 points per game and 2,000 rebounds per game.

The Rebels will also have the services of five outstanding redshirts from last season: Anthony Jones (Sr., 6-6, 212), who sat out last year recovering from a knee injury; Richard Robinson (Fr., 6-9, 206), who played in five games last season before contracting mononucleosis and being declared a medical redshirt; Gary Graham (So., 6-4, 185), who played in 28 games as a freshman during the 1982-83 season; and Armon Gilliam (So., 6-6, 220), a transfer from Oregon Coast Junior College, and Chris Fancher, a 6-0 guard from Crawford County High School in Marengo, Indiana.

Tarkanian feels that this combination of players could form an excellent team, but recognizes the possible problems.

"I think we have the potential to be a very fine team. We have good depth, good size and good quickness. These factors should allow us to set the pace in most games and play more aggressively on defense than we have in the past. We'll certainly have the opportunity to substitute more freely than all of our players can stay fresh," said Tarkanian.

Though Tarkanian doesn't see any real weaknesses for this team, he does have some concerns.

"I don't think that we have any major weaknesses, but we do have some question marks. Eldridge (Hudson) is still recovering from his injury, and his status for the season is unknown.

"We also need to get some good leadership, but I'm not sure who will step out to provide that. We're really counting on Freddie (Banks) and Gary (Graham) to handle the point guard position for us. However, it's important that Freddie improve on his defense from last year," Tarkanian said.

Another obstacle the Rebels will encounter is one of the strongest schedules in UNLV history. In addition to the always competitive PCAA schedule, the Rebels non-conference opponents include Georgetown, Maryland, San Diego State, Kansas State, and Colorado State.

Despite the loss of four of its top nine players to graduation, the Runnin' Rebels are looking forward to a successful season.
For Richie Adams, The Climb To The Top Was Much Steeper Than Most

Not often, but every once in a while someone comes along who becomes an overnight sensation. He always had the talent and the potential, but perhaps didn't channel his energies in the right direction. Sometimes something happens—something few can explain—that turns him into one of the hottest and most talked about persons in his field.

Adams had an overnight sensation. He was one of the hottest and most talked about persons in his field. His father had played for UNLV and his high school coach was Tarkanian with his doubts. He wasn't hurt by the criticism—he's just not an easy rejector, a great player. What he had to do is far more than what he had to do to get where he is today, and that alone makes him an All-America player.

There were other honors bestowed on Adams for his performances during last season. Associated Press named him as an honorable mention on the All-America team; he was first team All-PCAA; he was named to the PCAA All-Tournament team and was selected as the MVP of that tourney. Richie Adams, it seems, has come of age.

Richie has great athletic ability," said Rebel Coach Jerry Tarka- nian, who in his 22 years of coaching has sent 23 players to the NBA. "He really surprised all of us with how well he did last year. He has tremendous quickness and is a great leaper. There is nobody his size (6-9.25) who can jump any higher or quicker."

Adams was UNLV's leading scorer in 1983-84 with a 12.9 average on a team that had seven players average at least seven ppg. In PCAA games, Adams average 15.0 ppg, also a Rebel High. He was the team's top rebounder averaging 6.7 rpg overall and 7.7 rpg in PCAA play. He shot a very respectable 70 percent from the foul line and, although there are no stats to back this up, was even a better field shooter when the game was on the line. He shot very well from the field with a .576 mark second on the team to Ed Catchings. His defense was also improved as evidenced by his team leading 23 blocks and his third best total of 44 steals.

With all the numerous honors, all the acclaim, the crowds chanting Rich­ tarkanian must not be forgotten that Richie Adams has not had an easy time of it. He has had to struggle every step of the way.

His first season as a Rebel was 1981-82 and Adams played in 29 games, 14 as a starter, and averaged 7.5 ppg and 4.7 rpg. The following September, however, he left UNLV to return to New York because of his grandmother's death. He returned to UNLV in November but Tarkanian redshirited Adams. Confused and hurt, Adams decided to return home to the Bronx. After finally realizing that pro basketball was his way to set his mother out of the Bronx, he returned to UNLV the following September.

Adams' third arrival at UNLV left Tarkanian with his doubts. He wasn't going to take Adams back until his son Danny, the starting point guard last season and UNLV's career steal leader, talked his father into giving Adams another chance. For UNLV and Richie Adams, three real­ly was a charm.

"He's much more settled now," said Tarkanian. "He's happy. He has a better perspective of himself. I was so happy for Richie when he won PCAA Player-of-the-Year. He worked hard and earned it." As a result of his outstanding season in 1983-84. Adams moved up to 30th on the All-Time UNLV scoring list. With another great season, he has the possibility of moving up to the top 15, with the likes of Michael Burns, Richard Box and Reggie Theus.

The Richie Adams story has taken many people over 21 years. The story now finds him on a new path, the path of a successful career and more importantly, a successful life. Richie Adams has won the adoration of the Las Vegas fans, the respect of his collegiate coaches throughout the nation, the admiration of his fellow players and has caught the eyes of pro scouts. They all see Richie Adams as the PCAA's top player as a legitimate All-America candidate, as a player with outstanding athletic ability and as a person who is very happy to be at UNLV. What they should remember is that Richie Adams has to work much harder than most to get where he is today, and that alone makes him an All-America.

Boyd Grant, head coach at Fresno State said "Richie Adams is a great competitor. He has a bill of Bill Russell in him. What I mean by that is Richie's great intimidation factor—you might have him beat him, but his quickness and leaping ability allow him to recover and cause problems for someone trying to shoot over him."

"I'll say this—he is the best player in the PCAA and I see no reason why he wouldn't have the same kind of season as last year. He has great ability and seems like a person who has a lot of his act together."

Rod Tueller, head coach of Utah State University adds: "Richie Adams is an outstanding basketball player. I was very impressed with him at the spring meeting. He never do anything out of the ordinary things well. I don't mean that as criticism—he's just not an easy player to plan strategy against. He's a good rejector, a great leaper and he has the ability to dominate a game. He's somebody you just can't ignore."

On Adams' style, he is one who doesn't want to be ignored.
The University of Nevada, Las Vegas, one of the fastest growing institutions of higher education in the southwest, is a component of the University of Nevada system, established by the seven-member Nevada Board of Regents.

UNLV recently celebrated its 25th anniversary. The extensive academic programs provided on the Las Vegas Strip have contributed to the explosive growth of higher education since its birth in 1968.

After several years of providing extension courses in southern Nevada served by faculty from the University of Nevada at Las Vegas, the legislature officially chartered the Southern Regional Division of the university, and in the same year the first building on campus—Maude Haas—was completed. By the mid-1970s, the university had become a four-year degree-granting institution known as the University of Nevada, Las Vegas (UNLV).

The 335-acre campus is located two miles north of the Las Vegas Strip in the commercial and residential area. On-campus facilities serve over 10,000 graduate and undergraduate students as well as provide a center for cultural and extended educational experiences for the community.

Points of interest on the campus include the following:

**UNLV Museum of Natural History:** with specialists to illustrate the story of man in this region. The museum is open from 8:30 a.m. to 6 p.m. weekdays. 739-3399

**Avrum and Arwyl Halls:** The lush garden and bird habitat located in the lobby of the structure features a semi-covered outdoor patio that serves as an educational facility for students, faculty and the community.

**Ham Concert Hall:** was recently completed in 1983 on a $7 million, 3,800-seat pavilion for the Runnin' Rebels basketball team. The university expects to bring a wide variety of events into this spacious facility, named for longtime university dons E. Perry Thewer and Jerome Mack.

Construction also was completed in 1983 on an $11.7 million building to house both the College of Business and Economics and the College of Hotel Administration — Frank and Estella Baum Hall (named for the parents of donor Thomas T. Baum). In addition to many specialized teaching and research laboratories, the facility features a semi-covered outdoor concourse.

A generous gift from local attorney Artemus W. Ham, Jr., provided the seed money for the recently opened Alta Ham Fine Arts Building. Named for Ham's late mother, the $2 million facility houses the theatre arts, music, art and dance programs. It also contains an innovative Black Box Theatre for smaller-scale theatre productions as well as the campus Fine Arts Gallery.

Finally, a $7 million, four-story addition to the academic core was completed in 1981.

During the past three years, UNLV has embarked on an ambitious $80 million construction program which has resulted in new buildings on campus — three of them the direct result of local philanthropy.

Ground was broken in 1981 for the Thomas and Mack Center, an 18,500-seat sports pavilion, and it opened in November 1983 to become the new home of the Runnin' Rebels basketball team. The university expects to bring a wide variety of events into this spacious facility, named for longtime university dons E. Perry Thewer and Jerome Mack.

A distinguished faculty of more than 400 men and women are actively involved in teaching, research and community service. Faculty members, 77% with doctorates, have come to UNLV from many of the great teaching centers in the country — such as Stanford, Yale, Harvard, Berkeley and Stanford.

Bachelors degrees are awarded in 46 major subjects, and there are 25 programs which lead to master's degrees. Specialists degrees and doctorates are offered in the field of education. All programs have been fully accredited by the Northwest Association of Schools and Colleges.

UNLV operates on the semester system with the fall semester running from Aug. 20 to Dec. 17, 1983.

**The University of Nevada, Las Vegas**

The city of Las Vegas, Nevada, is a thriving metropolis of nearly half-a-million permanent residents nestled in a desert valley near the southwestern tip of the state.

Located in the scenic southwestern United States, Las Vegas is within a 30-mile radius of Lake Mead; the massive Hoover Dam and Colorado River recreational area; the moon-like trails of 12,000-foot Mt. Charleston; and a panorama of red-rock mountains, eroded sandstone landscapes and ripostes of old western towns. Also, within easy reach is the Southern California coastal area, Arizona's Grand Ca­pybon, California's Death Valley and Southern Nevada's Zion National Park.

First settled in 1855 as a missionary outpost of the Mormon Church, the city has grown into one of the premier entertainment spots in the world. Of course, everyone is familiar with the famous Las Vegas Strip, where renowned enter­tainers come to perform and the glitter is unsurpassed anywhere. Yet, the "Strip" is by no means the only means of entertainment. In many important ways, Las Vegas is like any other large city that is on the go. There is a rich cultural scene including art galleries, museums, theatres and numerous musical organizations.

In addition, there are new museums, re­cational parks, libraries, churches and hospitals making Las Vegas a city able to satisfy every taste.
MEET THE RUNNIN' REBELS

00 Richard Robinson
C 6-7 206 FR.
Granada Hills, CA

Robinson was awarded a medical redshirt last season due to a bout with hepatitis... appeared in five games averaging 1.2 points per game in only 20 minutes of action... "Richard has a great deal of athletic talent. He is quick, can block shots, he is just a good all-around player," said Coach Mark Warkentien... as a prepster at Kennedy High School, Robinson earned All-City honors while averaging 15 points and 15 rebounds per game.

11 Anthony Jones
C-F 6-6 187 JR.
Washington, D.C.

Jones redshirted last season at UNLV... a transfer from Georgetown University... "Coach Tarkanian has compared Anthony as another Reggie Theus," said Coach Mark Warkentien... as a prepster at Dunbar High School, Jones earned numerous honors including: McDonalds All-America, Adidas All-America, Dapper Dan Classic, International Team and the AAU National Team... also elected as his team's MVP and was named All-Metropolitan and Mr. Basketball.

12 Chris Francher
G 5-10 160 FR.
Morengo, IN

Francher comes to UNLV with a list of impressive credentials... averaged 18.5 points per game at Crawford County High... named player of the year for the Patoka Lake Conference for three consecutive years... named all-state honorable mention two years in a row and earned all-regional honors three straight years... "He is a real hard worker. His statistics indicate that he's a great shooter; he'll just have to make the adjustment to our style of play," said Coach Bill Lastra.

13 Fred Banks
G 6-2 156 SO.
Las Vegas, NV

Banks appeared in 35 games as a freshman, averaging 4.9 points per game... a local product from Valley High School, became an instant favorite of the Rebel fans... will more than likely start at point guard this season... "Potentially, he can be All-American," said Coach Mark Warkentien... "He is quick, can press, and is a great point guard and shooter"... named to the 1983-84 PCAA All-Freshman team.

20 Ed Catchings
F 6-7 201 SR.
Los Angeles, CA

Catchings appeared in 34 games and was the second leading scorer with a 12.3 average... high game was 30 points vs West Virginia on 12-10-83... received many honors last year including: PCAA Player of the Week, MVP and All-Tournament Team-Miller High Life, All Tournament Team-Budweiser Classic... impressive field goal percentage of .605 (170-281) and free throw percentage of .804 (78-97)... cousin Harvey Catchings plays for the Milwaukee Bucks.

25 Frank James
F 6-6 190 SR.
Baltimore, MD

James appeared in 35 games last season averaging 11.5 points per game... high game was 29 against New Mexico State on 2-2-84... shot 522 (172-329) from the field... "He is a very talented player with his biggest attribute being his outside shooting," said Coach Mark Warkentien... in 1983-84, "Spoon" was named to the PCAA All-Conference (second team) and Miller High Life-Rebel Round-up All-Tournament Team.
MEET THE RUNNIN' REBELS

30 Leon Symanski
F 6-7 210 JR.
Orange, CA
A transfer from Orange Coast Junior College, Symanski averaged eight points and eight rebounds per game last season. "He is an excellent defender," said Coach Mark Warkentien. "Leon is a Brozovich type of player, a blue collar player." "If Symanski can be compared to the durable, Brozovich, his asset to the 1984-85 Runnin' Rebels will be tremendous.

32 Gary Graham
G 6-3 185 SO.
Baltimore, MD
Graham elected to redshirt last season giving the Rebels tremendous depth in the guard position. In 1982-83, Graham appeared in 28 games averaging 1.8 points per game. "Gary is a good medium shooter and is very strong defensively," said Coach Tim Grigurich. Gary was voted the Freshman Trophy by the coaches for displaying hard work. Graham and teammate Frank James played at rival high schools in Maryland (Graham attended Dunbar and James attended Wallbrook).

33 Eldridge Hudson
G-F 6-7 212 SO.
Carson, CA
Hudson redshirted last season due to a knee injury which required surgery. In 1982-83, Hudson appeared in 26 games, averaging 9.3 points per game. High game was 18 points vs Wagner College on 12-28-82. Most rebounds 15 vs UN Reno on 12-9-82. "Eldridge in one word is a winner. He is a great kid and will do anything to win," said Coach Tim Grigurich. As a prepster at Carson High School, Hudson was named Los Angeles Player of the Year in 1981, while leading his team to the first state championship game ever played in California.

35 Armon Gilliam
F 6-8 230 SO.
Bethel Park, PA
A transfer from Independence Junior College, Gilliam averaged 17 points and 11 rebounds per game in 1982-83. His team sported a 33-5 record and a berth into the National Junior College Tournament. As a prepster at Bethel Park, Gilliam averaged 13 points and 10 rebounds a game his senior year. Recruited by Houston, North Carolina State, Maryland, Pittsburgh and Duquesne. Chose UNLV because of "their style of play.

43 Rickey Collier
G 6-4 186 SO.
Riverside, CA
Collier appeared in 17 games as a freshman, averaging 2.8 points per game. High game was 12 points vs San Jose State on 1-13-84. "He plays very hard and is a good shooter," said Coach Mark Warkentien. As a prepster at Ramona High School, Collier earned All-CIF and was named All-America by Street and Smith.

55 John Flowers
C 6-9 230 SR.
Fort Wayne, IN
Flowers appeared in 27 games as a junior, averaging 7.1 points per game. High game was 16 points vs Long Beach State on 1-6-84. Most rebounds was 10, accomplished three times vs Long Beach State, Irvine and Fresno State. "John is a superior athlete...he can run and jump so well and possess great board strength," said Coach Mark Warkentien. In 1981, Flowers was the state finalist in the 400 and 200 meter runs...transfer from the University of Indiana.

The 1984-85 Runnin Rebels Team

Optimism reigns high for the 1984-85 edition of the UNLV Runnin’ Rebels as they gathered for the traditional team photo at the Thomas and Mack Center. Some say the current Rebels may be one of the best ever assembled. They are (front, left to right) Gary Graham, Anthony Jones, Ed Catchings, Richie Adams, Frank “Spoon” James, John Flowers, Leon Symanski, Eldridge Hudson. In the back (left to right) are Head Coach Jerry Tarkanian, Coach Bob Kloppenburg, Manager Barry Symanski, Fred Banks, Richard Robinson, Armon Gilliam, Ricky Collier, Chris Francher, Coach Mark Warkentien, Coach Tim Grgurich, and Coach Bill Lastra.

REBELS IN THE RECORD BOOK

Individual Records: Career
Most Field Goals: 913, Eddie Owens, 1973-77
Most Points: 2221, Eddie Owens, 1973-77
Most Points, Two Years: 1657, Elburt Miller, 1966-68
Most Free Throws Attempted—Made: 718-551, Elburt Miller, 1966-68
Highest Free Throws Percentage: 77%, Robert Smith (216 of 264), 1976-77
Best Per Game Scoring Average: 29.1, Elburt Miller, 1966-68
Most Games Played: 120, Larry Anderson, 1979-83
Most Consecutive Games Played: 118 Eddie Owens, 1973-77; Richard Box, 1979-82
Most Rebounds: 1236, Danny Green, 1979-83
Best Rebound Average: 12.4 Jim Baker, 1973-74
Highest Field Goal Percentage: .580, Michael Johnson, 1979-82
Most Asst: 837, Danny Tarkanian, 1981-84
Most Steals: 184, Danny Tarkanian, 1981-84

Individual Records: Season
Most Points: 894, Elburt Miller, 1966-67
Highest Scoring Average Per Game: 31.5, Elburt Miller, 1966-67
Most Field Goals Attempted: 676, Elburt Miller, 1966-67
Most Field Goals: 307, Elburt Miller, 1966-67
Most Free Throws Attempted: 397, Elburt Miller, 1966-67
Most Free Throws Made: 286, Elburt Miller, 1966-67
Most Field Goals Made: 307, Eddie Owens (of 572), 1975-76
Highest Field Goal Percentage: .636 Mike Johnson (152-239), 1979-80
Highest Free Throw Percentage: .925, Robert Smith (98 of 106), 1976-77
Most Consecutive Free Throws made: 27 Robert Smith, Oregon (12-17-76) through Oklahoma (12-22-76)
Highest Rebound Average Per Game: 15.1, Jim Baker, 1973
Most Asst: 289, Danny Tarkanian, 1982-83
Most Steals: 74, Danny Tarkanian, 1983-84
Most Assists Per Game: 8.2, Danny Tarkanian, 1982-83

Individual Records: Game
Most Points: 55, Elburt Miller, Portland U., 2-12-67
Most Field Goals: 20, Elburt Miller, Portland U., 2-12-67
Most Free Throws Attempted: 24, Bob Florence, Houston, 1-24-67
Most Free Throws Made: 22, Elburt Miller, 1966
Most Consecutive Free Throws made: 15, Eddie Owens vs San Diego State, 12-11-76
Most Free Throws Missed: 10, Elburt Miller, vs Oklahoma City, 12-4-68
Most Points Scored in Half: 34, Bob Florence, 1-13-73, St. Mary’s
Most Rebounds: 26, Jim Baker, 2-23-73, USP
Most Assists: 20, Danny Tarkanian vs Arizona 12-6-82, Bayroll 12-22-82
Most Steals: 7, Jeff Collins vs Wagner College, 12-28-82; 7, Danny Tarkanian vs New Mexico State, 1-7-84

Team Record: Season
Points: 5,436 (1975-76), Points Per Game: 110.5 (1975-76)
Best Field Goal Percentage: .631 (1163-2900) 1983-84
Most Field Goals Attempted: 2,899 (1975-76)
Most Field Goals Made: 1,436 (1975-76)
Most Field Goals Per Game: 46.3 (1975-76)
Best Free Throw Percentage: .769 (610 of 791), 1976-77
Most Victories: 29 (1975-76 and 1976-77), (1983-84)

Fewest Losses: 2 (1975-76)
Best Winning Percentage: .935 (1975-76)
Most Rebounds: 1695 (1975-76)
Most Rebounds Per Game: 54.7 (1975-76)
Most Consecutive Games Won: 24, 1982-83
Most Consecutive Games Won—Two Seasons: 24 (1975-76)
Most Consecutive Wins on Home Floor: 72 (1974-75)
Most Asst: 712 (1976-77)
Most Steals: 301 (1975-76)
Highest Average Victory Margin: 21.5 (1979-76)
Most 100 Point Games: 23 (1976-77 and 1977-78)

Team Records: Single Game
Points: 164 vs Hilo, Hawaii, 2-19-76
Most Points Two Teams: 275 (UNLV 164 and Hilo Hawaii 111), 2-19-76
Most Points in One Half: 85, UNLV vs Hilo, Hawaii, 2-19-76
Biggest Victory Margin: 72 vs U.C. Irvine, 15-14-75 (129-57)
Most Field Goals made: 73 vs Hilo, Hawaii, 2-19-76
Most Field Goals Attempted: 122 vs Hilo, Hawaii, 2-19-76
Most Free Throws Made: 42 vs San Diego State (44 of 44), 12-11-76
Most Wins in One Team: 106 vs Oklahoma City (113) 12-7-68
Most Rebounds (including team): 84 (75 ind-11 team) vs hawaii, 12-19-69
Most Points by Opponent: 130 by Houston (UNLV 73), 1-20-71
Fewest Losses: 41 vs College So. Utah (61) 12-6-58; and Cal Western (44), 12-23-63
Fewest Points One half: 13 vs Cal Western, 12-28-63
Most Opponents Points One Half: 70 by Santa Clara, 1-8-70
Fewest Opponents Points One Half: 16 by St. Joseph, 2-15-65, 16 vs Arizona, 12-3-81
Fewest Opponents Points For Game: 42 by Grand Canyon, 1-6-62
Most Asst: 41 vs Wagner College 12-28-82
Most Steals: 26 vs Hilo, Hawaii, 2-19-76

Meiji University Set The Tone For Today’s Japan

Meiji University's history dates back to 1881, when a group of young scholars, dedicated to the instruction of scholarly French law and the humanities and sciences, established Meiji Law School, providing equal opportunity for education for generations to come.

A private institution, Meiji Law School was originally founded by scholars who intended to modernize Japan and Japanese education with European techniques. During its development into the university system of today, individuals associated with the institution had to overcome many difficulties and restrictions to achieve the learning and the search for truth.

Tatsuo Kishimoto, one of the founders of Meiji Law School, was one of the students sent by the Ministry of Justice to Europe, where he studied French Law at the University of Paris. He returned to Japan in February, 1880, and participated in the development of a new science of law for the government in the early Meiji Era (1868-1912). He felt the importance and need to promote the spread of knowledge of French Law in Japan. In 1881, he decided to found Meiji Law School and gathered scholars interested in the founder's intentions and drew the attention of the entire nation.

Meiji Law School moved to one of its present-day campuses in 1886 to accommodate its growing student body under Kishimoto, who took over as the institution's president at that time.

In 1888, the Ministry of Education designated Meiji Law School as a specially approved educational institution and divided the Schools of Law and Political Science. The two schools led the way in the development of modern institutions of higher learning, but faced many serious financial difficulties as a private school.

Meiji’s status as a university was formally recognized by the government in 1903 and the school was renamed Meiji University, adding the Schools of Commerce and Literature. The School of Literature had to close because of diminishing student enrollment, but the university kept alive the desire to reestablish it for many years and in 1953, it was reopened.

In 1904, the School of Commerce was the first among Japanese institutions to inaugurate a program that has served as a model for commerce education in Japan. As Japan developed as a capitalistic nation, it was necessary for industrial and business circles to develop their human resources to serve society.

The School of Commerce met these needs and occupied a respected position while serving in the development of the university as a whole. Meiji became a full-fledged university in 1925 with the establishment of three additional schools and a three-year college.

A women's college was established in 1929 to offer the first opportunity for women in Japan who desired to seek higher education.

The university was granted a charter in 1952 for a new post-graduate educational program in each school, dedicated to the instruction in advanced study and research. The School of Business Administration was the first of its kind in Japan and established in 1953.

With the growth of the nation, Meiji University has remained as one of the eminent universities in Japan, with an enrollment of over 30,000. On November 4, 1980, the university celebrated its centennial anniversary at Tokyo Budokan Hall. Over 200,000 students have graduated from Meiji and they have devoted great contributions to the Japanese society.

In more recent times, the university has adopted a policy of admitting a number of foreign students each year. Intentional foreign students are accorded special consideration for admission to Meiji.

Except for students sent by foreign government, Japan does not issue permits to foreign students to enter Japan without university admission credentials issued from accredited schools, such as Meiji, in Japan.

Admission to Meiji in all cases is determined by the university and appropriate selection examination. Applicants must be proficient enough in Japanese to study and do research at the university. If the applicant’s language ability is not adequate, he or she must complete at least one year of Japanese language instruction at an authorized language institution in Japan.

All the Meiji schools offer courses leading to a Bachelor’s Degree with graduate programs leading to Master’s and Doctoral Degrees. Japan’s private universities, with Meiji, have greatly contributed to the progress of all students both Japanese and foreigners.

Private universities in Japan, as in other countries, rely on funds from private sources, tuition and fees, and receive little financial aid from the government. Nevertheless, eighty percent of all college students in Japan, study at private universities.

And Meiji University has set the tone for today’s Japan.

ONLY ONE TEAM WILL WIN THE GOLD... WITH A MOLTEN JB-77!

Since 1917, the Molten reputation for quality products and innovative technology has spread throughout the world. It’s no wonder.

• Molten is an official supplier of Olympic basketballs, Pan American Games soccer balls, World Cup Championship volleyballs and World Championship basketballs.

• Molten was the first ball manufacturer in the world officially recognized by four international federations: FIBA (Federation of International Basketball Association) FIVB (Federation of International Volleyball Association) FIFA (Federation of International Football Association) IHF (International Handball Federation)

• Each individual Molten ball must pass 11 extensive tests for proper ball balance, roundness and weight to provide coaches and players with the highest possible quality and game control.

JOIN THE MOLTEN WINNERS!
No Ref Baiting For Meiji's Coach Hayashi

No matter how the officials may call the game, you won't find Head Coach Kyoichiro Hayashi of the Meiji University basketball team, ranting and raving on the bench.

The reason is simple... when he's not coaching, Hayashi is often called upon to put on the striped shirt and put a whistle in his mouth to perform as a referee.

One is a list of F.I.B.A referees in Japan, Hayashi usually referees games involving international competition held in Japan.

His most memorable assignment, by his own testimony, is working the Olympic Games basketball competition during the Tokyo Games, won the the United States team in 1964.

Because of his excellent work during the Olympics, Hayashi was also invited to be one of the officials at the Olympic Games in the Orient in the following year in 1965.

Hayashi feels he learned much about his approach to coaching basketball while working games as an official, including the international games under international rules, which differs in many ways from the way the game is played in the United States, he said, "I personally believe that the rules of the game as under international rules there is a lot more contact and it can get pretty heated, and as far as the Japanese teams are concerned, it is not to their advantage to have to basically play larger foreign teams."

Hayashi honed his coaching skills under Pete Newell, who coached the University of California, Berkeley, team to a national championship in the mid-50s. "Coach Newell comes to Japan often and conducts clinics for players and coaches of the Meiji University basketball team, ranting and raving on the bench.

Hayashi began his coaching career at the high school level, winning the national prep championships with Meiji High School in 1962. He later became head coach of the Dalat University basketball and the industrial league basketball team, holding the position for four years and winning numerous titles.

There is no professional basketball played in Japan and the industrial league is the closest to what can be called "pro ball," as these players are filled with U.S. college stars and imported American talent. At the present time, there are a dozen former U.S. college stars on the rosters of industrial league teams.

Most of the Americans are those who barely missed making it to the NBA so their presence on Japanese teams makes a rather sizable impact on the strength of the teams.

Hayashi took over as head coach of Meiji after serving as assistant for several years. The reason he was able to elevate himself to head coach was when Meiji failed to win the Japan national college championships last season.

Meiji has always regarded as the top basketball schools in Japan and their failure to win the title resulted in the coaching change.

Meiji has won the national college championships eight times, the Kanto Area (Tokyo) championships nine times and the Big Six League crown nine times. Meiji fans have grown used to winning and hope that the change to Hayashi will return them to the top of the Japanese basketball scene in 1984.

Hayashi takes a realistic view of his game with UNLV and says it will be hard for his team to have to play errorless ball and also have a lot of luck to stay close. "I have been told by some of my friends in the American coaching fraternity that it's going to be a difficult thing for my team to win the games. So I think we're going to have to make some shooting and playing our basketball very well if we want to have a chance."

"There is not enough time in a day to do everything, especially when you are playing against a championship team. So Jerry Koloskie, who is now in his second full season with the Rebels, "I could easily spend 100 hours a week trying to work on the defense and the injury situation of injured players. But there are so many other things that must be taken care of within the training staff, and we have to have a head trainer."

Hayashi says that as a "job description" for a trainer you will have to "keep the medical aspects of sports for the prevention, treatment and rehabilitation of athletic injuries," according to Koloskie. And that's the start.

Koloskie, who earned his Bachelor of Science from West Virginia University in 1981 and his Master of Science in 1983, has seen many of the various other things that accompany his position, including insurance dealings, travel arrangements, attending staff meetings, observing surgery, taking athletes to the doctor's office, game day preparations, checking supplies and of course balancing the yearly budget.

As a result of the workload, the training room staff number 18, which includes Koloskie, his two assistants — Peaches Boyer and Wilson — and 13 student trainers. And to be sure, each and every one of those boys and girls have their part to play.

One of the newest members of the UNLV training staff is a second-year student. "We have a typical crazy schedule that is put in by all the trainers," said Keziah Boyer, from West Virginia and his Master of Science from Nicholls State University.

A typical day for Wilson begins at 7:00 AM when he starts by checking on all the athletes who want or need treatment. At 8:00 AM on Tuesdays and Thursdays, Wilson teaches his class on "A day in the life of a trainer." Monday-Wednesday-Friday, he stays in the training room because on those days he has a morning class. A typical training room stays open for treatment between 10:00 AM and 1:00 PM, each day except for the various sports teams begin their daily practices. At this time, the training room is full in for tapeing and other preventative measures prior to practice. The hours between 1:00 and 3:00 PM are usually the busiest because athletes who have sustained injuries are treated and/or given a prescription for medication. By the time practice is over, the various sports teams begin their daily practices. At this time, the training room is full in for tapeing and other preventative measures prior to practice. The hours between 1:00 and 3:00 PM are usually the busiest because athletes who have sustained injuries are treated and/or given a prescription for medication. By the time practice is over, the various sports teams begin their daily practices.

The first year of student training is spent doing "so-called "dirty work" jobs. Everyday tasks such as putting up games bags, laying up ties and learning to use all of the equipment are the things needed to be done. By the time a student trainer reaches his second and third years, they have had the classes needed to evaluate most common injuries.

"The student trainers usually don't evaluate until they are at least a junior or senior year. By the time a student trainer is at this level, they have had some evaluation classes and can do things within their capability."

With 15 collegiate men's and women's sports to take care of, the UNLV training staff is spread quite thinly. The sports with the highest number of athletes, according to Koloskie, basketball, football and soccer, due to a much higher injury rate than other sports.

"With the other non-revenue sports, injury rates are not as high but they are still just as important as any other sport and they have to try and meet the needs of all," said Boyer.

"The UNLV athletic training room possesses the sophisticated technology of the U.S. military, but it is still as hectic as anyone's."

"The words that come to mind for a trainer are "total medical care."" We have a great situation here at (UNLV), said Boyer. "We have our own responsibility, we can have our own evaluation, we can look at anything. We (Boyer, Wilson or Koloskie) are different from some other states in that."

Boyer's main responsibility is women's sports and in particular women's basketball. She oversees that all sports are covered by her and her training staff.

"The trainer is hired basically to reduce medical costs. You're supposed to keep each athlete healthy and if there is a problem, you're supposed to recognize that problem and work with them when the injury is minor."

"The training room facility rows possesses the sophistication of the U.S. military, but it is still as hectic as anyone's."

According to Koloskie, however, a typical student trainer goes through a typical set of duties for a trainer. "We have our own responsibilities but we also keep a complete record of medical information. We take care of the athletes and we work with them when the injury is minor."

"We have to keep a record of the athletes, the various sports and the treatment that is given to all athletes," said Koloskie.

"We have to keep a record of the athletes, the various sports and the treatment that is given to all athletes," said Koloskie.
The University of Nevada, Las Vegas enjoyed its most successful year in recent history. UNLV can now boast its first ever national champion as native Sheila Tarr captured first at the NCAA championships in the heptathlon. Also, UNLV had 12 of its 14 intercollegiate sports invited to national post-season competition. The previous high was three sports. Lastly, the UNLV athletic department can boast being in the black for the first time.

Fred Dallimore’s Hustlin Rebel baseball team was ranked as high as 16th in the nation; finished second in the SCBA behind national champions CSU-Fullerton; won over 40 games for only the fourth time in school history; and advanced to the finals of the Central Regional of the NCAA’s before losing to defending national champ Texas, and Lamar University.

"This was without question the finest year we have had since my first year (1980-81) at UNLV," said Rothermel. "We have great coaches and great student-athletes who deserve tremendous credit for their accomplishments."

The Lady Rebel track team, under the guidance of coach Al McDaniels and Mike Strong, had more than Sheila Tarr to be proud of. The whole team finished 25th at the NCAA Championships and throughout the season had several individuals ranked in the top 26. The Lady Rebel basketball team started the pre-season ranked 19th in the nation and finished with a PCAA championship and first-ever bid to the NCAA playoffs. Lady Rebel Misty Thomas also distinguished himself by setting a UNLV single season assist record and making the Canadian Olympic Team which competed in the 1984 Los Angeles games. Thomas is a native of Windsor, Ontario, Canada.

Lady Rebel swimming had a pleasant surprise when freshman Camille Nix, a native of Henderson, NV, qualified for the NCAA swimming and diving championships in the 50 yard free. Nix just missed earning All-America status by a scant .06 seconds. As a team, the Lady Rebels won the first ever PCAA championships.

The Rebel swimming team did very well, finishing third in the PCAA’s behind perennial powers USCSC and Pepperdine. Two individuals did qualify for the NCAA Championships: Tim Dobias in the 200- and 400-yard IM and Pablo Newallo in the 200-breast.

The Rebel Cross Country team enjoyed a good season as the team qualified for the National Regional of the NCAA cross country championships in Oregon. Individually, Melvin Thompson finished second at the PCAA championships and German Aranda took fifth.

One of the few near misses occurred to the Rebel football team in the final game of the season. All they needed was a win over CSU-Long Beach for a trip to the California Bowl and a PCAA championship. Leading 21-17 with a little over a minute to play and CSULB needing to drive 91 yards for the TD, Long Beach QB Todd Dillon drove his team to the winning TD with 7 seconds remaining. The Rebels finished second in the PCAA and had a 7-4 record.

The tennis team had a PCAA champion in number two singles player Scott Warner, who posted a 25-3 season record and swept through three matches to win the PCAA crown.

LADY REBEL BASKETBALL

Misty Thomas

Olympic Experience Boosted Misty’s Skills

In Southern California fans of the two-time national champion Lady Trojans of USC speak with near reverence of their star Cheryl Miller.

In Southern Nevada, fans of UNLV’s Lady Rebels say they also are blessed to have one of the top woman players in America, one who probably be an All-American this year.

Her name is Misty Thomas, a 5-11 junior out of Windsor, Ontario, Canada, who has guided the Lady Rebs over the past two years from the point guard post.

With Misty’s hands on the trot-tie, the Lady Rebs registered a 24-4 mark during the 1982-83 season, the most successful record in UNLV’s history. That was followed by a first-ever PCAA Women’s Basketball Championship in the 1983-84 season and a berth in the first round of the NCAA Tournament, another first for the school.

“We’ve tasted two years of success,” Lady Rebel Co-Head Coach Jim Bolla said. “We finally made it to the NCAA Tournament. Now that we know that it takes to get there, we have to take it one step further.”

Despite a 78-58 loss in the first round of the NCAA Tournament to Cal State Long Beach, the 1983-84 campaign was overwhelmingly one of the most prosperous ever for UNLV Women’s basketball.

The catalysis for the Lady Rebs’ goal of climbing to the top of the collegiate basketball world is Misty Thomas, who developed her talents during the off season through international competition at the 1984 Los Angeles Olympic Games, as a member of the Canadian Olympic team. Thomas was instrumental in leading Canada to a fourth place in Los Angeles.

Last year Misty compiled a 15.5 points per game average, grabbed 6.3 rebounds per game and broke the school record for assists with 180, breaking Sheila Powell’s old mark of 174 set in 1976-77.

Thomas also earned CoSIDA Academic All-America honors accumulating a 3.94 grade point average. Along with Danny Tarkanian, first team Academic All-America on the Rebels’ men’s team, they became the first-ever Academic All-America tandem in the country.

The Lady Rebs, although blessed with the talents of Misty Thomas, will certainly not be a “one woman team.”

Returning to give the Lady Rebs a chance to fulfill their goal of making the NCAA Tournament is Donya Monroe, 6-2 junior. Monroe finished the 1983-84 season as the top rebounder for the team with 8.5 rebounds per game to go with her 11.8 points per game, which made her the third highest scorer on the team.

Also returning are sophomore Angela Christian (6-2) and Charlie Blair (5-9). Christian saw action last season as the back-up power forward and tallied 7.1 points and 5.2 rebounds per game.

Adding depth to this year’s squad are junior Jackie Tefft (6-4) and Kathy LaVern (6-1).
Congratulations to Head Football Coach Harvey Hyde of UNLV on his selection to coach the West Team in the 10th Annual Japan Bowl Collegiate All-Star Football game to be played on Jan. 13, 1985 at Yokohama Stadium, Japan. The Japan Bowl is the only NCAA sanctioned all-star game played in a foreign country. Japan Bowl is sponsored by Sports Nippon Newspaper, the largest sports paper in Japan.

Will be Telecast Live via Satellite On Sat., Jan. 12, 1985 by ESPN at 7:30 p.m.
