<td>Health and well-being of kids</td>
<td>I served my community by judging tournaments for Golden Desert Speech and Debate. I have learned a lot because I did the same events in high school seeing how it is from the alternate perspective. Great experience with this organization, will continue to work with them after the semester is over. The pros were listening to the talented students and the speeches they prepared and worked so hard on.</td>
<td>I made a difference for the sight by wanting to help a great cause. Volunteering helps create a chance of happiness for someone else and that’s what I gain from it. My goal for the future is to get more volunteers to help judge these events which will in turn give the kids more motivation to do well.</td>
</tr>
<tr>
<td>Consistent issue that changes a little</td>
<td>The cons to being a judge would be the waiting time in between events because you must be selected. Judging exceeded my expectations because I am somewhat familiar with the process and it was a lot of fun.</td>
<td></td>

Service site encourages participation to all students.

My approach was the same, helping kids find interests out of the classroom that are educational.

From the Journal of Student Health.
