NEVADA MEDICAL RESIDENCIES, 2023

Health Fact Sheet No. 25 | September 2023

Prepared by: Annie J. Vong, Emily J. Daclan, Caitlin J. Saladino, and William E. Brown, Jr.

PURPOSE:

This fact sheet highlights medical residency data for the 2021, 2022, 2023 graduating classes of the Kirk Kerkorian School of Medicine at the University of Nevada, Las Vegas (UNLV) and the University of Nevada, Reno (UNR) School of Medicine. This fact sheet presents the number of residency program matches at the Kirk Kerkorian School of Medicine at UNLV and the UNR School of Medicine and reveals where Nevada medical school students pursue their residencies, and updates findings from a 2022 fact sheet exploring 2021 and 2022 graduating class data.¹

ABOUT THE DATA:

Medical students pursuing medical residencies within a state is an important indicator of future healthcare capacity in that location. After medical school students graduate, they pursue medical residencies in a specialty to gain additional skills and hands-on training. Medical residencies are completed at a school or clinic and typically last three to four years. The State of Nevada has two allopathic medical schools: the Kirk Kerkorian School of Medicine at UNLV and the UNR School of Medicine. A portion of graduates from these two schools pursue residencies in Nevada. Students who do so are far more likely to establish their medical practice in Nevada and help alleviate the current shortage of doctors. This fact sheet utilizes match-day data from both Nevada medical schools for the classes of 2021, 2022, and 2023. UNR data are available from the School of Medicine's 2021 Residency Match Results, 2022 Match Day Results, and 2023 Match Day Results publications.² For 2021, 2022, and 2023, the Kirk Kerkorian School of Medicine at UNLV provided data on residency locations for medical students.³

KEY FINDINGS:

1. In 2023, graduates of the Kirk Kerkorian School of Medicine at UNLV were matched to 74 residency programs, with the largest share (28) of those placements (37.8%) located in Nevada. The second most frequent location of residency programs for UNLV graduates was California (13 residency programs, 17.6%).
2. In 2023, graduates of the UNR School of Medicine were matched to 62 residency programs, with (8) of those placements (12.9%) located in Nevada. The most frequent location of residency programs for UNR graduates was California (14 residency programs, 22.6%).
3. For the combined classes of 2021, 2022, and 2023, graduates of the Kirk Kerkorian School of Medicine at UNLV graduates were matched to 190 residencies, with 70 of those residency placements (36.8%) located in Nevada.
4. For the combined classes of 2021, 2022, and 2023, graduates of the UNR School of Medicine were matched to 199 residencies, with 28 of those residency placements (14.1%) located in Nevada.
5. For 2021, 2022, and 2023 graduates of both the Kirk Kerkorian School of Medicine at UNLV and UNR School of Medicine, the most chosen specialties are internal medicine (67 overall matches), family medicine (49 overall matches), and emergency medicine (39 overall matches).

³ UNLV Kirk Kerkorian School of Medicine, "Match Data for the Class of 2021" (unpublished confidential document) and UNLV Kirk Kerkorian School of Medicine, "Match Data for the Class of 2022" (unpublished confidential document).

Table 1 and the subsequent pie charts provide medical residency match-day data for the 2021, 2022, and 2023 graduating classes of the Kirk Kerkorian School of Medicine at UNLV and the UNR School of Medicine.⁴ “In-state” refers to residency programs located in Nevada, while “out-of-state” refers to residency programs in any other state. For the combined 2021, 2022, and 2023 graduating classes, 36.8% of residency programs for graduates of the Kirk Kerkorian School of Medicine at UNLV are located in Nevada, while 14.1% of residency programs for UNR School of Medicine graduates are located in-state.

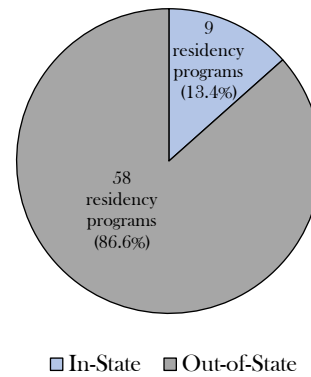

Table 1: Kirk Kerkorian School of Medicine at UNLV and UNR School of Medicine Residency Programs, 2021, 2022, and 2023 Graduating Classes

Graduating Class	UNLV			UNR		
	Total # Residencies In-State	Total # Residencies Out-of-State	Total # Residencies	Total # Residencies In-State	Total # Residencies Out-of-State	Total # Residencies
2021	19	36	55	9	58	67
2022	23	38	61	11	59	70
2023	28	46	74	8	54	62
Combined 2021, 2022, & 2023	70	120	190	28	171	199

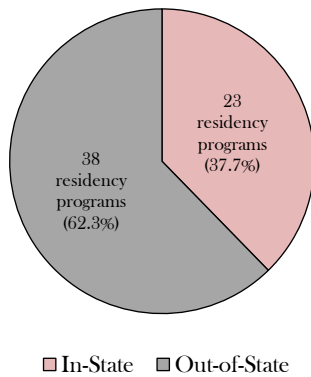

In-State vs. Out-of-State Residency Programs Kirk Kerkorian School of Medicine at UNLV 2021 Graduating Class

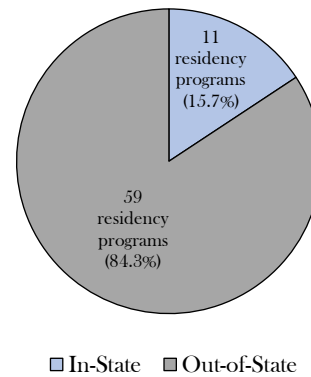

In-State vs. Out-of-State Residency Programs University of Nevada, Reno School of Medicine 2021 Graduating Class

In-State vs. Out-of-State Residency Programs Kirk Kerkorian School of Medicine at UNLV 2022 Graduating Class

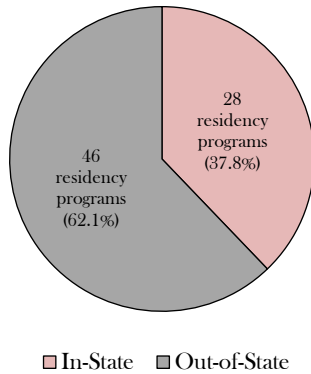

In-State vs. Out-of-State Residency Programs University of Nevada, Reno School of Medicine 2022 Graduating Class

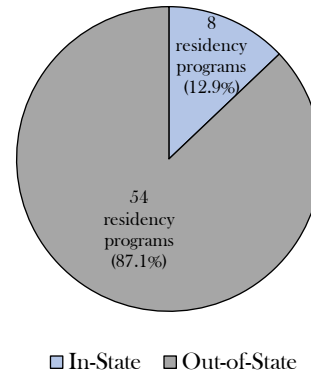

⁴ The Kirk Kerkorian School of Medicine at UNLV graduated 50 medical students in 2021, graduated 55 medical students in 2022, and graduated 66 medical students in 2023. Based on their area of medical specialization, some medical school graduates are matched to a preliminary/transitional program, or advanced residency program assignment in addition to their residency placement, which is why the number of residency placements noted in Table 1 differ from the total number of graduates.

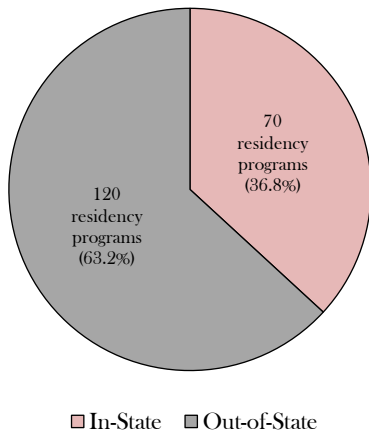

In-State vs. Out-of-State Residency Programs

In-State vs. Out-of-State Residency Programs
University of Nevada, Reno School of Medicine
Combined 2021, 2022, and 2023 Graduating Classes

Table 2 highlights the residency disciplines pursued by students at the Kirk Kerkorian School of Medicine at UNLV and students at the UNR School of Medicine in 2021, 2022, and 2023. For the combined classes of 2021, 2022, and 2023, the top discipline for both schools was internal medicine with 67 overall matches. The second and third most common specializations were family medicine (49 overall matches) and emergency medicine (39 overall matches). Disciplines tied for the lowest number of residencies (1) include medicine-pediatrics, general surgery (preliminary), neurology (preliminary), neurological surgery, a combined program for neurology psychiatry, and urology.

Table 2: Residency Disciplines Pursued by Students from the Kirk Kerkorian School of Medicine at UNLV and UNR School of Medicine, 2021, 2022, and 2023

Table 3 lists the discipline, residency program, and geographic location of residency matches for the 2023 graduating class of the UNR School of Medicine. In 2023, graduates of the UNR School of Medicine were matched to 62 residency programs, with 8 of those placements (12.9%) located in Nevada. The most frequent location of residency programs for UNR graduates was California (14 residency programs, 22.6%). For the 2023 graduating class, the most matched discipline is tied between internal medicine (8 matches) and pediatrics (8 matches).

Table 4 lists the discipline, residency program, and geographic location of residency matches for the 2023 graduating class of the Kirk Kerkorian School of Medicine at UNLV. In 2023, graduates of the Kirk Kerkorian School of Medicine at UNLV were matched to 74 residency programs, with 28 of those placements (37.8%) located in Nevada. The second most frequent location of residency programs for UNLV graduates was California (13 residency programs, 17.6%). The most matched disciplines were internal medicine (14 matches), family medicine (10 matches), and psychiatry (10 matches).
