## Introduction

Digital Scholarship@UNLV (<http://digitalscholarship.unlv.edu/>) is an open access repository of scholarship produced by UNLV faculty, students, and affiliates. By contributing their publications to Digital Scholarship@UNLV, authors increase the visibility and accessibility of their research. Fulltext documents in Digital Scholarship@UNLV are available to anyone, anywhere, with an internet connection and authors receive monthly readership reports and access to an author dashboard that allows them to track use over time and geographically. These data complement citation data in demonstrating the impact of scholarship. The repository also holds metadata records (no full text attached) of faculty scholarship which help to highlight and make discoverable works produced at UNLV. Additionally, Digital Scholarship@UNLV hosts several open access journals edited by UNLV faculty including the *UNLV Gaming Research & Review Journal* and the *Asian/Pacific Island Nursing Journal*. We invite faculty to contact us to learn more about adding documents (articles, book chapters, etc.) to the repository.

The School of Nursing Digital Scholarship Collection (<http://digitalscholarship.unlv.edu/nursing/>) contains faculty publications, theses and dissertations, and the *Asian Pacific/Island Nursing Journal*.

This report contains data for the 2016-2017 Academic Year (August 2016-July 2017) downloads (how many and where from-“reach”) of fulltext materials in Digital Scholarship@UNLV. Records that only contain metadata do not generate downloads and therefore are not reflected in the maps and show as 0 in the download report attached at the end.

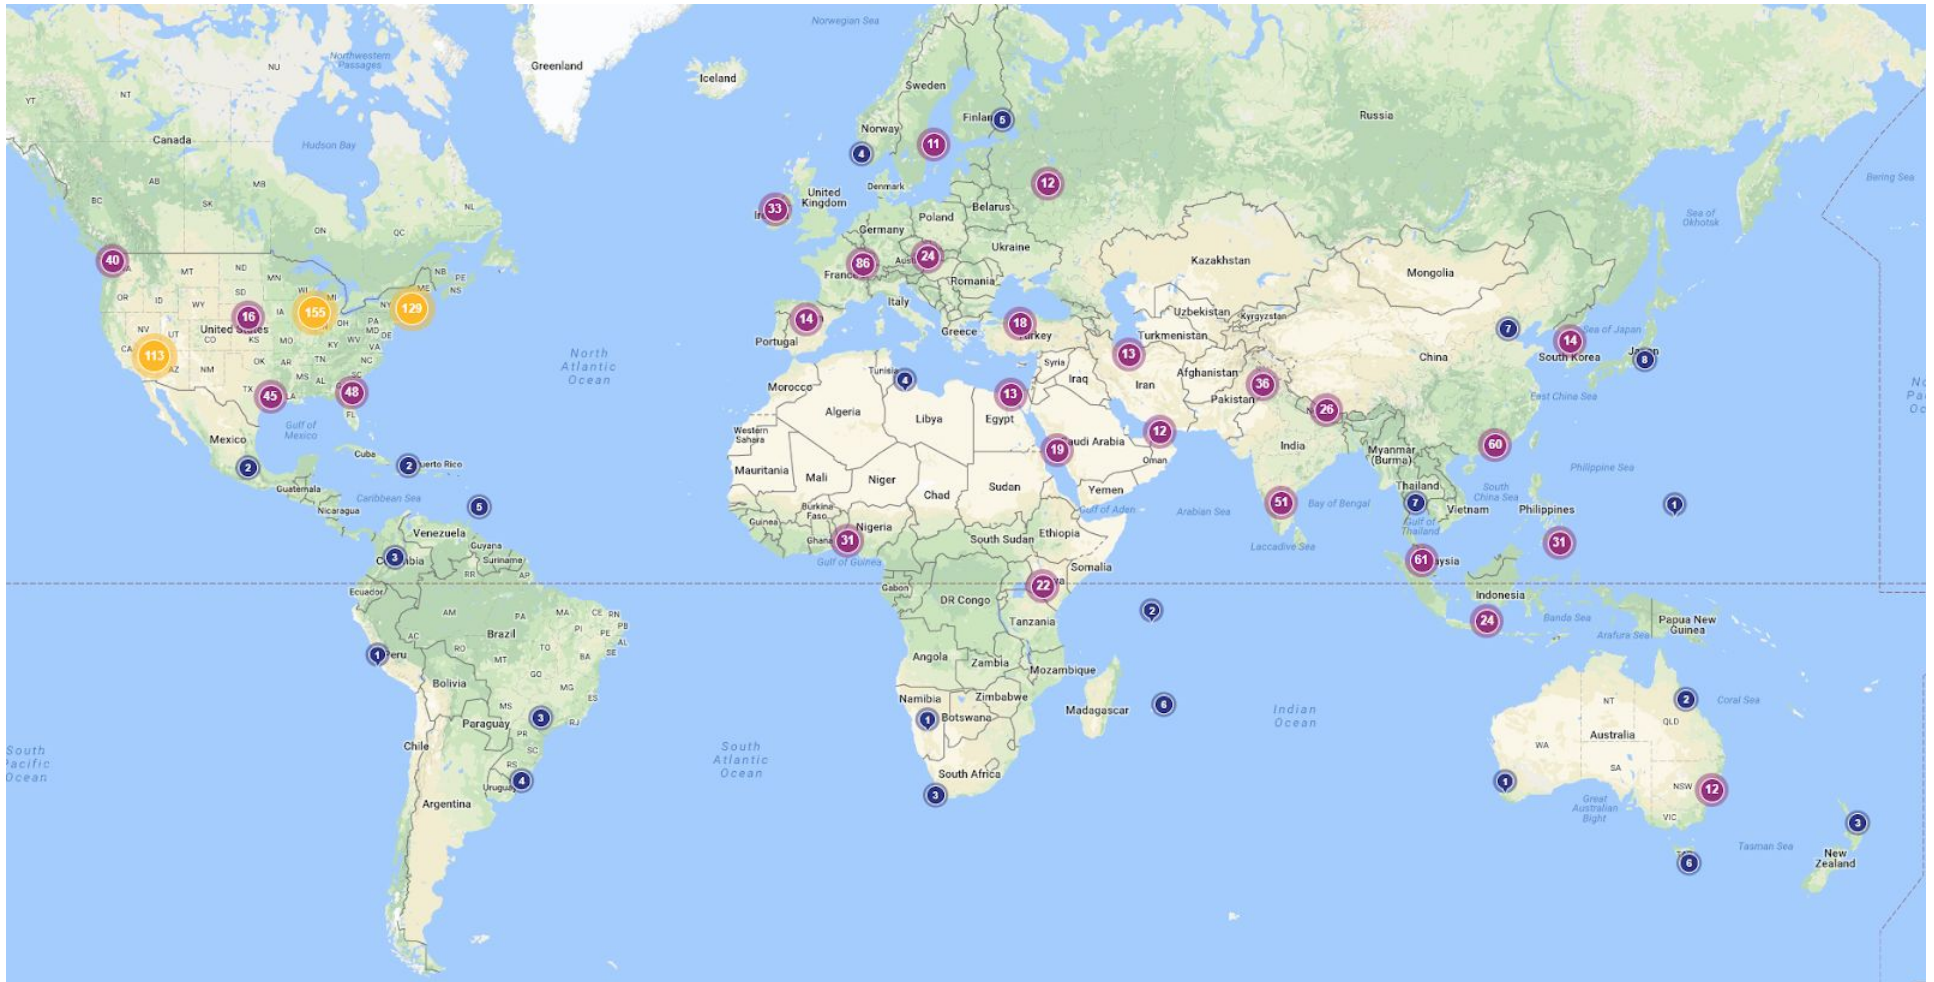

Additional data is available - such as for previous years and for more detail on geographic reach. To find out more, please contact Xan Goodman (Health Sciences Librarian) or Andrea Wirth (Scholarly Communication Librarian) or visit the [Readership Dashboard for this collection](#).
