Introduction

Purpose: Three Square is an organization that helps people who are food insecure.

Organization: Three Square distributed over 36 million meals to families who are in desperate need of food. Their goal is to distribute enough food to allow everyone to have Three Square meals a day. The organization allows people to pick from multiple volunteer opportunities to help the cause of food scarcity.

Paradigm: Three Square is a project service with some charity. The organization does make meals for those who are unable to provide nutritious meals for themselves, which is where the charity part comes from. However, the project comes from the point that it is an established organization that does its work on a daily basis.

Experience

How I Volunteered: I participated in Kids Café Kitchen, where I helped make boxed lunches. This program has different duties each person does in order to get meals ready.

Difference Made: Each person who volunteers makes a slight difference in the fact that more boxes when there is one more volunteer. Each minor part done by each volunteer is important part of making a boxed meal. A good working team can make the most boxed meals together.

Different View: It is really eye opening when looking at the statistics of how many people are living with little food. I found myself grateful for what I have.
