The Berkeley Campus Culture

- Research and graduate program pre-eminence
- Strong faculty governance
- Highly entrepreneurial culture
- Autonomous academic departments, schools, and colleges
- Decentralized “silos”

Berkeley Library Culture

- Library pre-eminence
- Collections-centered
- Value of subject specialization
- Library silo

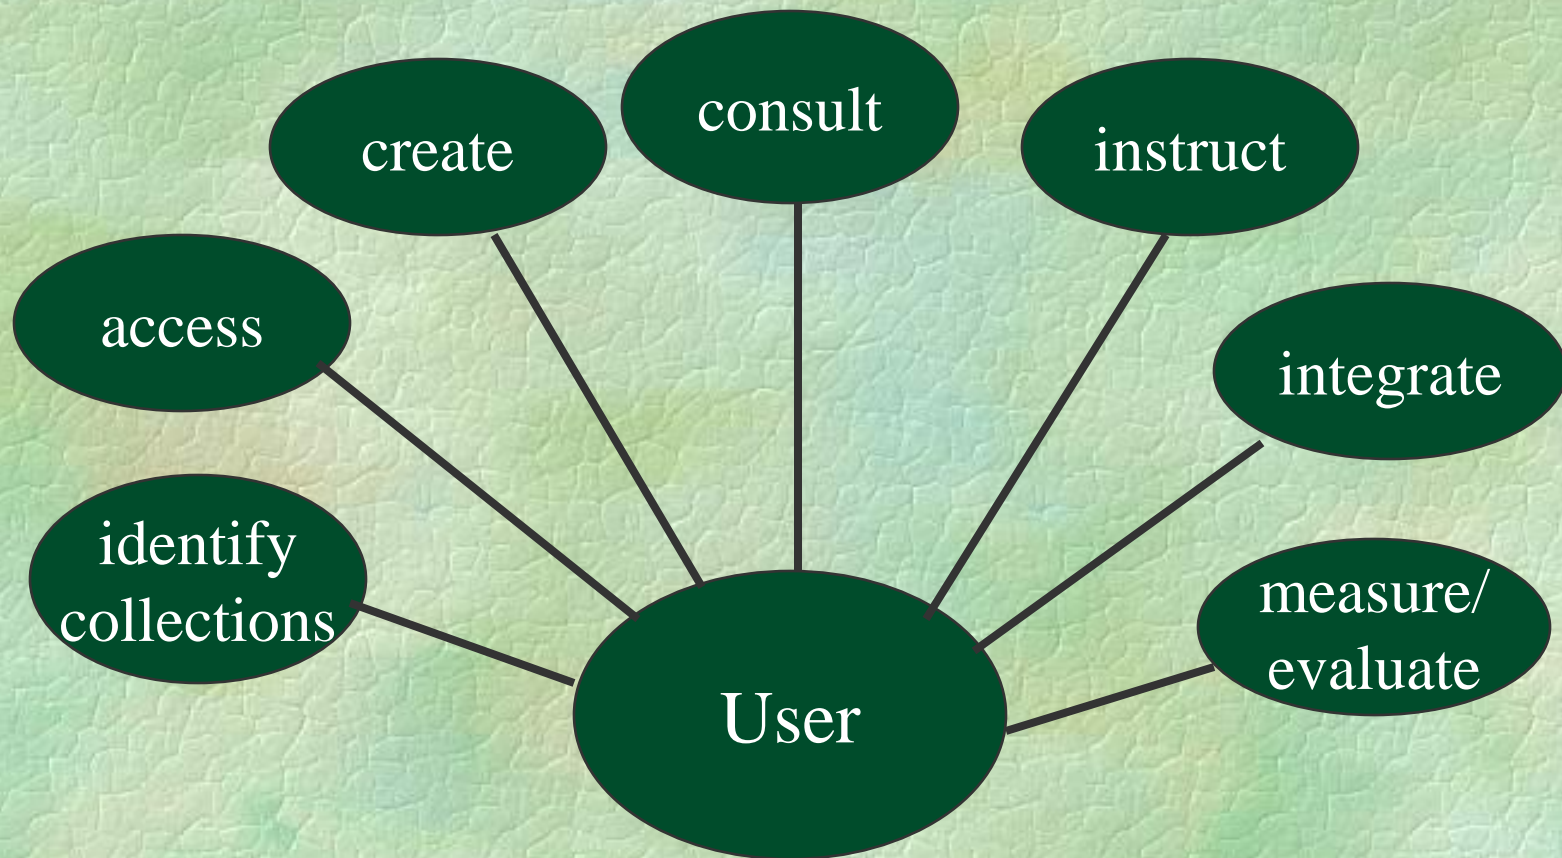

Shifting Library Culture

Traditional Model

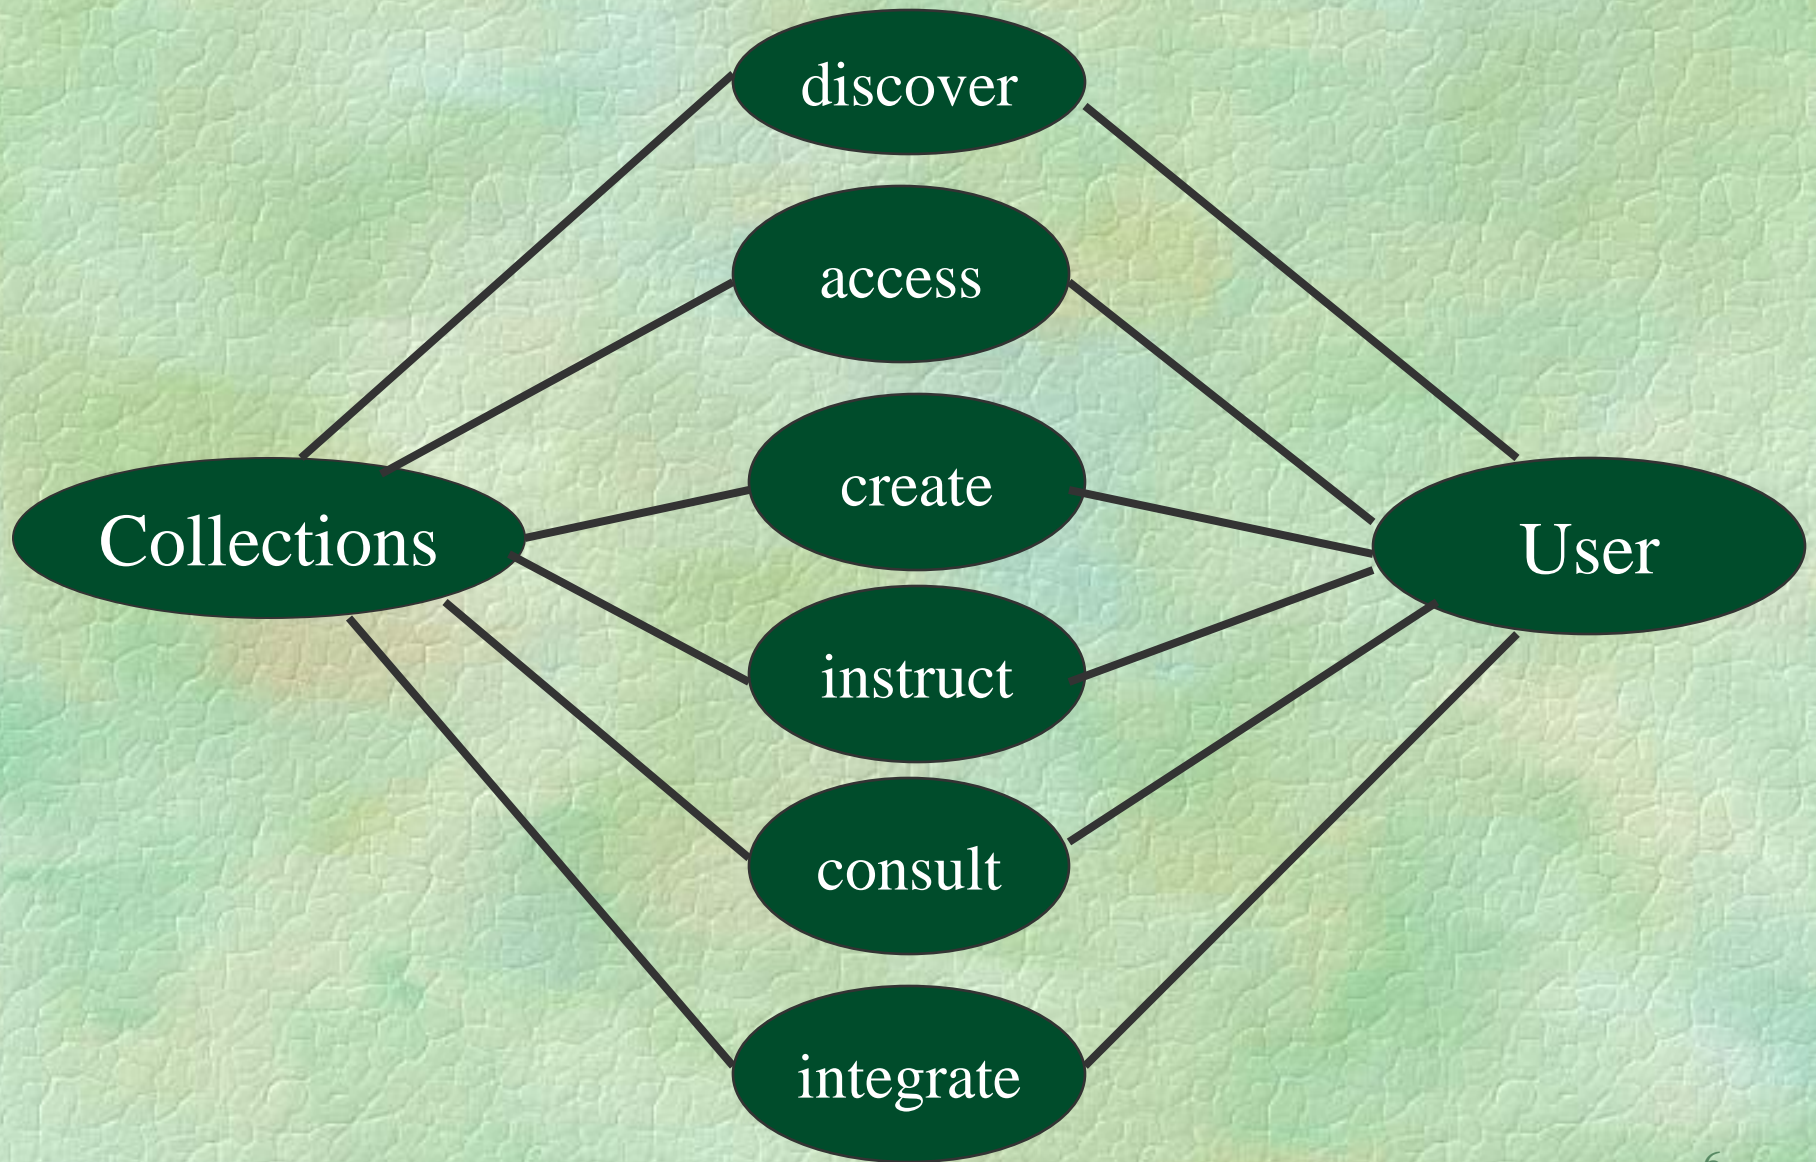

Shifting Library Culture

New Model

Patty's Version - Connection Development

Goals for Undergraduate Education

- Develop an integrated vision for undergraduate education
- Support a culture that values teaching as a core institutional value
- Leverage strength as a research university on behalf of undergraduates by promoting research-based learning and information literacy skills
- Utilize learning technologies effectively
- Promote more effective partnerships between faculty, GSIs, Library, and other academic units

Library Role in Undergraduate Education

- From “center of campus” to “center of student learning”
- Scale instruction by working with faculty
- Leverage resources and clout through campus collaboration

Undergraduate Education Challenges

- Research - teaching tension
- No general education curriculum
- RFP culture
- Fragmented infrastructure for academic support
- Limited resources

Challenges -- Library Perspective

- Students research skills on decline
- Use of collections on decline
- Google use is up, up, up
- Faculty assignments assume “research” skills
- Faculty ownership of information literacy
- Scaling instruction for so many large enrollment courses
- Need for campus collaboration

“Models of Academic Support”

*Effective, collaborative models
of academic support on leading campuses
urgently need to be
developed and explored
from a variety of perspectives...*

Mellon Objectives

- To support a community of faculty serving as change agents for teaching within the academy
- To strengthen collaboration among campus partners in support of instructors and instruction
- To strengthen Fellows' commitment to undergraduate research opportunities
- To increase the use and appreciation of libraries and library collections
- To assess the impact of undergraduate research assignments on student learning and faculty teaching
- To create a scalable and sustainable model for promoting changes in courses and curricula.

Strategies

- *Create a cohort of faculty change agents*
- *Create a campus collaboration of academic support partners*

Project Activities

- Summer Institute
 - Curriculum planning
 - Recruitment
- Academic-year implementation
- Long-term commitment

Evidence of Success

[VP biography](#) The Council of Academic Partners (CAP) is a collaboration of varied campus units that encourage, support, and enhance excellence in teaching. The units represented on CAP support undergraduate and graduate teaching and all levels of teaching staff at Berkeley. CAP projects are characterized by creative sharing of ideas, expertise, and responsibilities to achieve common goals that strengthen the culture of teaching on campus.

Progress to Date

- Institute curriculum
- Evaluation framework
- Pilot courses
- Implementation teams
- Faculty change agents
- Council of Academic Partners

Challenges Ahead

- Moving beyond early adopters
- Encouraging departmental ownership
- Scaling the collaboration
- Securing long-term institutional support
