Abenomics

Three Arrows

1. Bold monetary policy
2. Mobile financial policy
3. Growth strategy that rouses private investment

*Gradual inflation(2%)

One of the Growth strategy that rouses private investment

On 24 April 2013 ,Kick of New I R(integrated Resort) Parliamentary League conference.

* IR(including Casino) is needed !!

Japan has one of the big gaming markets, which includes various games such as lottery, horse racing, motorcycle racing, bicycle racing, motorboat racing, and pachinko and pachinko-slot machines. While games like lottery, horse racing, motorcycle racing, speed boat racing, and bicycle racing are managed by the public sector, Pachinko and Pachinko-slot games are managed by private companies. The Japanese gaming market is worth around 240 billion US \$.

1. Japan Gaming Market, Now

- * In Japan, "Gaming which bets money on chance win or lose" is a prohibition in Japan according to Article 185, 186 and 187 of the criminal code in principle. However, "Gaming which bets money on chance win or lose" has been permitted by the special law.

- * Horse racing in Japan is based on the horse-racing law, and the supervisory authority is the Ministry of Agriculture and Forestry. The purpose of this law is the promotion of horse racing and stock raising.
- * Speedboat racing is based on the motorboat-race law, and the supervisory authority is the Ministry of Land, Infrastructure, and Transport. The purpose of this law is the promotion of ships, maritime-affair businesses, and local financial health.
- * The cycle race is based on the bicycle game law, and the supervisory authority is Ministry of Economy, Trade and Industry. The purpose of this law has aimed at the promotion of bicycle, promotion of physical education, and local financial health.

Motorcycle racing is based on the small-car-race law, and the supervisory authority is the Ministry of Economy, Trade, and Industry. The purpose of this law is the promotion of small motor vehicles, physical education, and local financial health.

- * The lottery is based on the certificate law of the prize-winning money, and the supervisory authority is the Ministry of Public Management, Home Affairs, Posts, and Telecommunications. The purpose of this law is the promotion of financial health.
- * Totocalcio (football pools) is based on the sports promotion vote law, and the supervisory authority is the Ministry of Education, Culture, Sports, Science, and Technology. The purpose of this law is the promotion of physical education,
- * Pachinko and pachislo are based on the Entertainment Business Law, and the supervisory authority is the National Police Agency. Although the realization act has been passed for pachinko and pachislo, it has been recognized as a source of entertainment and not as a gaming device.
- * While the payout on horse racing, speed boat racing, bicycle racing and motorcycle racing is 75%, the payout on lottery and totocalcio (TOTO) is 50%.

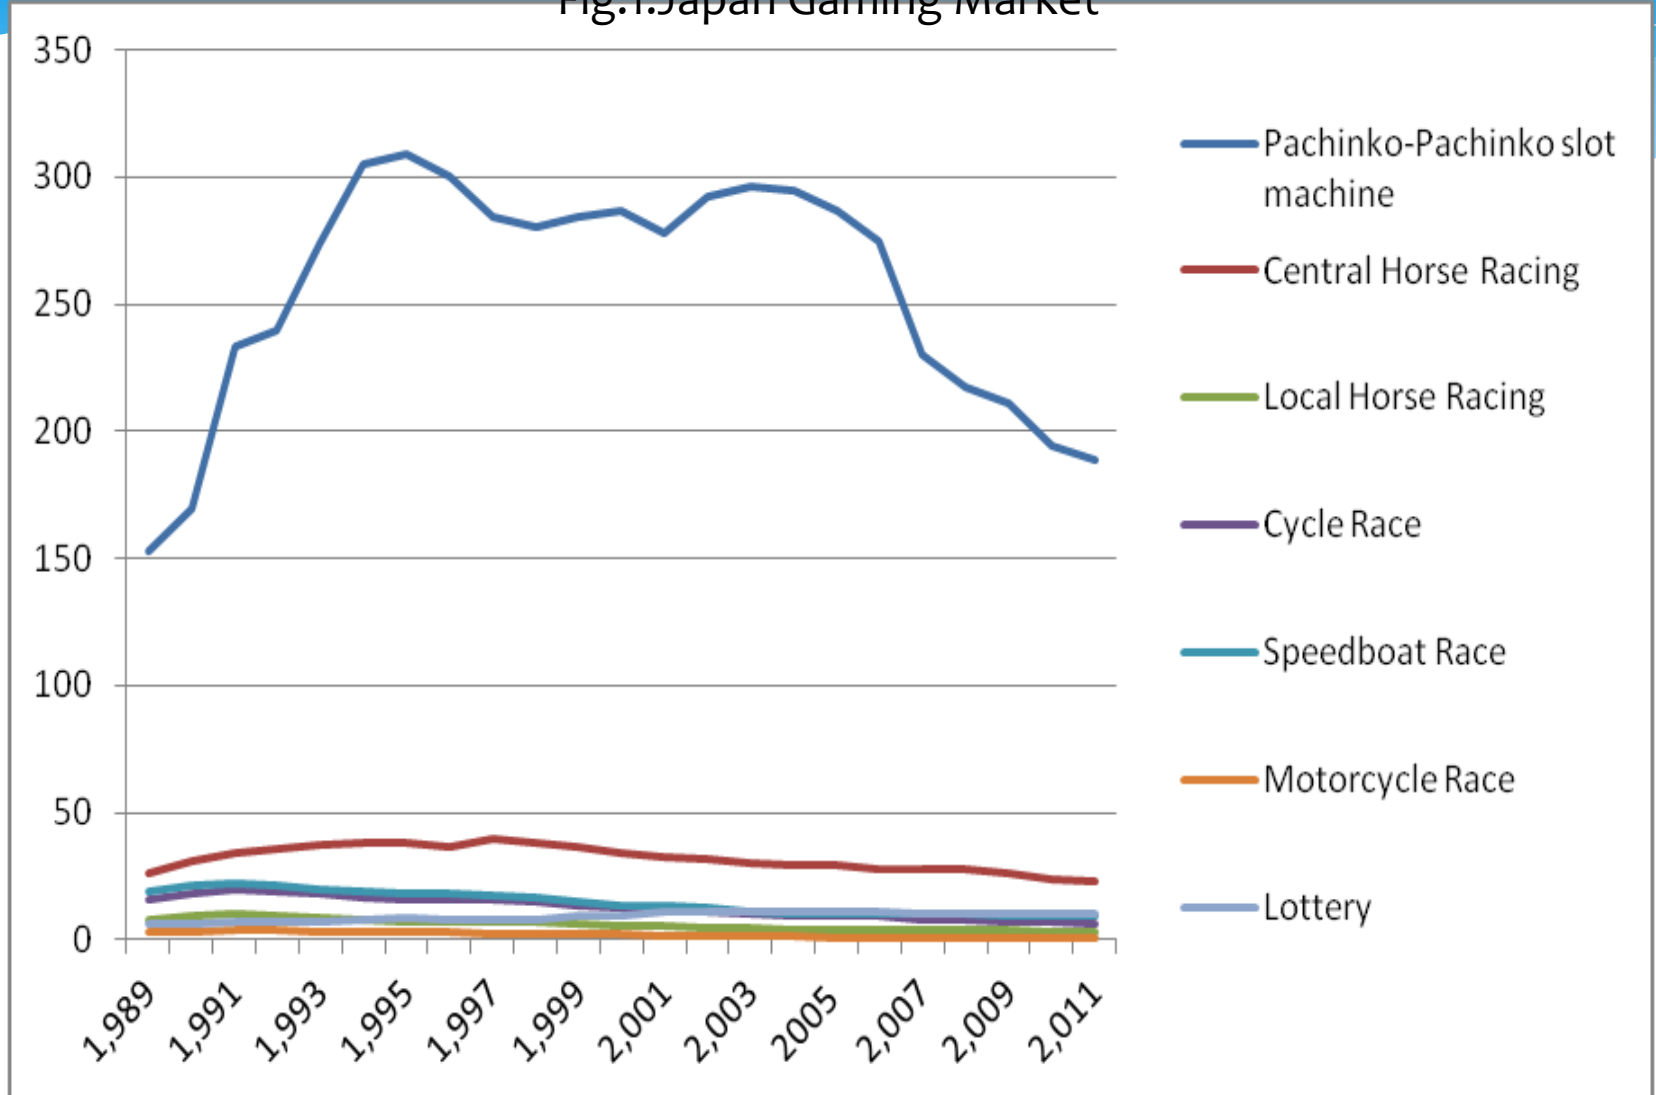

- 
- * On the other hand, the payout on Pachinko and Pachislo is around (about 88%).
 - * There is no Casino Law in Japan,now.
 - * There is no legalized Casino in Japan.
 - * There are many illegal Casinos in Japan.
