About Cureus

[BLOG \(HTTPS://BLOG.CUREUS.COM\)](https://blog.cureus.com) [ABOUT \(/ABOUT\)](#)
 Cureus is the [Open Access Medical Journal](https://openaccessmedicaljournal.com) for a new generation of doctors and patients. Based in San Francisco, California, Cureus leverages the power of an online, crowd-sourced community platform to promote medical research with tools to better serve and highlight physicians and researchers around the world. The result? Better research, faster publication and easier access for everyone. [SUBMIT RESEARCH \(/publish/articles/new\)](/publish/articles/new) [SIGN IN \(/users/sign_in\)](/users/sign_in)

Publishing your work with Cureus means you retain the copyright and we'll publish your article for free if you meet our editorial standards! What's more, the Cureus platform is designed to provide a place for physicians to build a digital CV anchored with their posters and articles. [JOIN NOW \(/REGISTRATIONS/SIGN_UP\)](/REGISTRATIONS/SIGN_UP)

Today, generating an audience for your article depends almost entirely on a journal's circulation, limiting exposure to only a few thousand physicians in your field. Medicine is increasingly cross-disciplinary, as physicians read thought-provoking articles from specialties outside their own. Meanwhile, patients have virtually no access to this important content. Cureus provides everyone with access to thought-leading content. No paywalls. No red tape.

Join the Cureus community and help us revolutionize how medical knowledge is published and shared.

Open Access Statement: The Cureus Journal of Medical Science is a fully open access journal, which means that all articles are available on the internet to all users immediately upon publication. Cureus publishes all accepted articles under a CC-BY license (<http://creativecommons.org/licenses/by/4.0/>).
