# PREFACE

CGDIP 2018 was held in Bangkok, Thailand from July 27-29, 2018. CGDIP 2018 was organized by the Asia Pacific Institute of Science and Engineering (APISE). The conference provides a useful and wide platform both to display the latest research and for the exchange of research results and thoughts in Computer Graphics and Digital Image Processing. The participants of the conference were from almost every part of the world, with backgrounds in either academia or industry, even well-known enterprise. The success and prosperity of the conference is reflected in the high level of the papers received.

The proceedings are a compilation of the accepted papers and represent an interesting outcome of the conference. This book covers two chapters: 1. Applications & Visualization; 2. Image Processing, Detection and Recognition.

We would like to acknowledge all of those who supported CGDIP 2018. Each individual and institutional help were very important for the success of this conference. Especially we would like to thank the organizing committee for their valuable advice in the organization and helpful peer review of the papers.

We sincerely hope that CGDIP 2018 will be a forum for excellent discussions that will put forward new ideas and promote collaborative researches. We are sure that the proceedings will serve as an important research source of references and the knowledge, which will lead to not only scientific and engineering progress but also other new products and processes.

Prof. Shahram Latifi, University of Nevada, Las Vegas, USA
