This Report is brought to you for free and open access by the Public Lands Institute at Digital Scholarship@UNLV. It has been accepted for inclusion in Get Outdoors Nevada by an authorized administrator of Digital Scholarship@UNLV. For more information, please contact digitalscholarship@unlv.edu.
Executive Summary

- The number of records in the volunteer database increased by 3.5%.
- A total of 1,676 database records were archived due to inactivity resulting in a reduction of 26% in the number of current records in the database. The database currently contains 4,957 records.
- Website activity increased, recording an average of 68,086 hits per month, an increase of 22% from last quarter, with an average of 5,228 pages viewed per month.
- The new website design was launched along with the release of a monthly electronic newsletter.
- How to *Succeed with Volunteers* training was conducted for SNAP teams and well received by all.
- Four SNAP teams identified opportunities for working with volunteers to enhance sustainability of their programs.

Summary of Attachments

- IVP team meeting agendas
- How to *Succeed with Volunteers Interagency* Training Evaluation

Task 1. Refine and maintain a quality Web-based volunteer database.

The Volgistics volunteer database is now populated with 4,957 records. (*See Figure 1 on next page*). The number of volunteers in the database increased 3.5% over the quarter, but had an overall decrease of 26% due to the archiving and deletion of volunteers who signed up more than two years ago and never volunteered.
Fig. 1 above shows increase in number of records in the database of volunteers.

Task 2. Manage, update, and administer an IVP Website.

During this quarter, a new web design was launched and average website activity increased; results are as follows:

- An average of 68,086 hits per month, an increase of 22% over last quarter.
- An average of 5,211 pages viewed per month, an increase of less than 1% over the average for the previous quarter. (See Fig. 2 below.)
Task 3. Evaluate and revise, as appropriate, Standard Operating Procedures (SOPs) for all areas of interagency volunteer management.

The Interagency Volunteer Team (IVP) met three times during the quarter to further develop the trainings and events scheduled for the quarter and to continue strategic development of a sustainability plan (see attachments for meeting agendas).

Task 4. Evaluate and update strategies and tools for volunteer recruitment.

The IVP team launched a new website at the beginning of February 2009 in conjunction with delivering the first Get Outdoors Nevada electronic newsletter. The e-newsletter replaces the monthly text-only email updates, which all active volunteers and mailing list recipients receive. It is a dynamic HTML based newsletter that is archived at the Get Outdoors Nevada blog spot, and accessible from the home page of the website. The newsletter compliments the website and contains the following sections:

- Upcoming events
- Current volunteer positions
- Current trainings
- A volunteer spotlight
- A list of work accomplished by volunteers in the previous month
- A safety tip
- A SNAP conservation project spotlight
- A desert ecosystem spotlight
The format of the newsletter was well received as evidenced by the increase in website activity immediately following the release of the inaugural edition.

**Task 5. Support Agency Departments and SNAP Teams with conservation projects that require volunteer workforce on the public lands.**

To empower other SNAP teams to enhance the sustainability of their programs through volunteerism, the IVP team conducted a two-day training entitled *How to Succeed with Volunteers*. Fourteen individuals representing all four agencies attended the training. Evaluations of the course indicated all the sessions of the training were useful and applicable to team members’ jobs (see Attachment 2 for summary).

Prior to this training a representative from the IVP team requested a short amount of time at each SNAP team meeting to re-acquaint the teams with the volunteer resources available to them as they look to the sustainability of their programs. Table 1 contains a summary of these meetings. Due to calendaring variability in the meetings of the SNAP teams, an IVP representative was not able to meet with every team. As the fiscal year continues the IVP team will make every effort to meet with the remaining SNAP teams to ensure all teams are aware of the assistance in recruiting, registering, retaining and recognizing what the IVP team can provide.

agencies in the Vegas valley.

Table 1 contains a summary of meeting accomplishments

The Public Lands Institute provided support for the following events which are described and summarized in Table 2 below.

**Restoration Event**

**January 24, 2009 – Ash Meadows Wildlife Refuge—U.S. Fish and Wildlife Service**
The Interagency Volunteer Program collaborated with the Take Pride Interagency Program (Don’t Trash Nevada) to promote and recruit 35 volunteers for a habitat restoration event in the Ash Meadows Wildlife Refuge Area. Volunteers contributed 255 hours and removed 15 cubic yards of cattails from the area. The removal of this species provides opportunities for other native species to re-vegetate the area, increasing biodiversity of the refuge. The efforts put forth by the volunteers improved the pupfish habitat and helped to secure the ecological health of a 670 foot stretch of the outflow of the Kings Pool.

**Placer Cove Clean Up**

**February 21, 2009 – Placer Cove—National Public Lands Institute**
The Interagency Volunteer Program collaborated with the Take Pride Interagency Program (Don’t Trash Nevada) to promote and recruit 23 volunteers for a litter clean up at Placer Cove in the Lake Mead NRA. Volunteers contributed 69 hours and removed over 1200 pounds or 7 cubic yards of litter and debris. The efforts put forth by the volunteers allowed this significant recreational area to be restored back to its well-kept state.

**Bunkerville Clean up:**

**February 21, 2009—Bunkerville- Bureau of Land Management**
The Interagency Volunteer Program collaborated with the Take Pride Interagency Program (Don’t Trash Nevada) to promote and recruit 15 volunteers for a restoration event to help restore Ash Meadows. Volunteers contributed 75 hours and removed 100 cubic yards of trash. The efforts put forth by the volunteers allowed this significant geographical area to be restored back to its well-kept state.

**Red Rock Days Clean up and Restoration Event:**

**March 28, 2009—Red Rock Canyon- Bureau of Land Management**
The Interagency Volunteer Program collaborated with the Take Pride Interagency Program (Don’t Trash Nevada) to promote and recruit 57 volunteers for a cleanup and restoration event in the Red Rock Canyon NCA. Volunteers contributed 228 hours and removed 10 cubic yards of trash. Volunteers also assisted in the mending of a gate and the removal of dangerous ropes. The efforts put forth by the volunteers allowed this significant conservation area to be restored back to its well-kept state.

Table 2 shows the details of the types of events that were scheduled by agencies in the spring of 2009.

Task 6. Evaluate, refine, enhance, and deliver interagency volunteer orientation and training program.

Five trainings were held this quarter. Table 2 summarizes the trainings offered.

- 14 volunteers completed the Interagency Orientation training on March 4-5, 2009
- 15 volunteers completed the First Aid and CPR training on March 14, 2009
- 22 volunteers completed the Native Plant training and Wildflower hike on March 14, 2009
- 4 volunteers completed the IVP orientation training on March 19, 2009
- 13 volunteers completed the Graffiti Removal training on March 21, 2009

Table 3 shows the details of the types of trainings that were scheduled by agencies in the spring of 2009.
Task 7. Identify possible grant and donation opportunities to help support and sustain the program.

Public relations and outreach activities, as well as opportunities to develop new collaborative community partnerships and relationships included the following:

- Began development of the 2009 media campaign, which will target specific markets to meet the various SNAP team needs.
- Examined possibilities of service learning grants.

Task 8. Plan and implement volunteer recognition initiatives and events.

Beginning in January 2009, thank you messages were sent out following each volunteer event. The messages included details on the accomplishments of the volunteer event, helping people see the difference their work made, which should encourage them to participate in future events. After the system for sending out thank you messages becomes solidified in the next quarter, it will include a link to an optional feedback form. The form will provide volunteers with an opportunity to suggest improvements to events while collecting valuable data on volunteer satisfaction with each event.

Planning was started for the second bus tour which provides volunteers with a chance to interact and learn from SNAP personnel they may otherwise not have a chance to meet. This training is a popular recognition and retention tool providing volunteers with enhanced opportunities to feel part of the federal land management team.

A contract was signed with the Renaissance Hotel to serve as the site for the 2009 Volunteer Recognition Banquet. The banquet will take place on Saturday October 31, 2009 from 9 am to 11 am.

Margaret N. Rees, Principal Investigator
IVP Meeting Agenda

Date: January 8, 2009
Location: NPS Conference Room
Meeting Called By: Nancy Bernard (NPS) & Beth Barrie (PLI)
Attendees: Jim Cribbs (BLM), Amy Nichols (USFS), Christina Nalen (USF&WS)

9:00 – 9:30 Round Table
   All
   Share what has been happening in the last few weeks regarding the Interagency Volunteer Program

9:30-9:35 Request from the Board:
   Nancy
   Team will have the following products completed by the end of the 3 morning sessions.

   “They have also asked for the goals to include the following:
    - any anticipated outreach products
    - the development of a sustainability plan.

   Tami Lucero needs the 2009 annual goals for our team no later than January 16.”

9:35 - 9:50 Update Annual Goals
   Nancy
   Review annual goals and update if necessary. This was done last fall and should only take a few minutes.

9:50 – 10:30 Anticipated Outreach Products
   Nancy
   Team will determine if we have any outreach products needs for 2009. Brainstorm ideas and complete the worksheet.

10:30 -10:45 Break

10:45 – 11:00 Events and Event Profile
   Beth
   Review upcoming events for Jan/Feb. Have event profile filled out and give back to Beth by COB Thursday.

11:00 – 11:30 Meetup.com
   Beth
   Discuss the possibility of utilizing meetup.com to connect volunteers and carpooling. Team to decide if this is a possibility.

11:30 - 12:00 Carpooling announcement in confirmation email
   Beth
   Discuss and decide what is best for the program regarding confirmation email to volunteers and time frame of email to go out.

12:00 – 1:00 Lunch

1:00 – 2:30 Development of Program Sustainability
   Nancy
   Discuss and develop with the team a plan for sustainability. What are we doing to develop a sustainable program for the future? Some of the past discussion we have had regarding “what is core to our program?” will be utilized.
IVP Meeting Agenda

2:30 – 3:00  Bus Tour
Beth
Status of bus tour logistics and have FS/FWS begin planning the tour. Generate ideas/suggestions.

Action Items:
