How much virtuality can a bet take?
Starting points based on the subsidiarity principle

– Country features
  • Historical (Betting regulated since 2011)
  • Economical (Employment - return to society)
  • Societal (betting must be inhibited but considered as less dangerous)
  • Financial (taxes, return to horse associations)
  • Cultural (channeling policy – criminal sanctions)
– Gambling does not constitute a normal economic activity, nor a harmless pleasure – protective measures
– E-sports/fantasy sports/spread betting/binary options, poker investors
Belgian Gaming Act of 7 May 1999, modified in 2010

- Criminal Act - A prohibition unless licence
- Gaming Commission was instituted
  - Representatives from Justice/Interior/Economic Affairs/Public Health/National Lotteries
  - Permanent Chairman – Judicial officer
- Regulation of online and betting since 2011
Broad gambling definitions

• games of chance: any game by **which a stake** of any kind is committed, the consequence of which is either **loss** of the stake by at least one of the players **or** a **gain** of any kind in favour of at least one of the players, or organisers of the game and in which **chance is a factor**, albeit ancillary, for the conduct of the game, determination of the winner or fixing of the gain
Betting

• **bet**: game of chance where each player makes a stake and that results in gain or loss which is not dependent on the acts of the player but on the occurrence of uncertain events that occur without intervention of the players;

• **bets between players**: a bet where an organiser acts as intermediary, players who play against each other, stakes are merged and distributed after deduction of a percentage (taxes, organisation costs);

• **bets against odds**: a bet where the player bets on the result of a particular fact and where the amount of the winnings is determined depending on certain fixed or conventional odds and where the organiser is personally liable for paying the amount of the gain to the players
