Family influences on adolescent problem gambling

(literature review)

- **Parental gambling** (*Dickson et al. 2008; Felsher et al. 2003; Gupta and Derevensky 1998; Hardoon et al. 2004*)
- **Frequency and severity of parental gambling** (*Vachon et al. 2004*)
- **Parental involvement in their children's gambling** (*Delfabbro & Thrupp, 2003; Felsher et al. 2003; Wickwire et al. 2007*)
- **Adolescents' perception that one or more family members gambled a lot or problematically** (*Cronce et al. 2007*)
- **Family members' attitudes towards and engagement in risk behaviors** (*Beyers et al. 2004*)
- **Parents' perception that gambling is not a potential risk** (*Campbell et al. 2001*)
- **Family problems and lack of family support** (*Hardoon et al. 2004*)
- **Particular importance of fathers' influence** (*Hardoon et al. 2004*)

Croatian Youth Gambling National Study

(2011-2013) *(Ricijaš, Dodig, Kranželić & Huić, 2013)*

- **n=2.702** (7 Croatian cities)
- life-time prevalence = **81.6%**
- **sports betting** most frequent
- regular sports betting:
 - **20% of all adolescents**
 - **35% of male adolescents**
- **CAGI - GPSS:**
 -  **12.9% red light**
 -  **17.3% yellow light**
 -  **69.8% green light**
- **21% of fathers** regularly bet on sport results
- **45.5% of male adolescents** report - their **parents know** about their gambling
- **23% of male adolescents** gambled **with their parents** (at least once in their lifetime)

New research study:

“PARENTS’ PERCEPTION OF YOUTH GAMBLING” 2015/2016

Original study design and instrument:

**prof. J. Derevensky, PhD and scientific team members
McGill University, Montreal, Canada**

**Parallel studies in
Finland, Romania & Israel**

Research study

- 11/2015 - 01/2016
- Zagreb and Split, Croatia
- High-school students (age 14-18) and their parents

Research sample

■ Youth

- $N = 1.060$
- **City:** Zagreb = 42.7%; Split = 57.3%,
- **Gender:** M = 59.6%; F = 40,4%
- **Age:** M = 16.18; SD = 1.214

■ Parents

- $N = 770$
- **City:** Zagreb = 50.8%; Split = 49.2%,
- **Gender:** M = 36.8%; F = 63.2%
- **Age:** M = 45.66; SD = 5.365

Results

HOW SERIOUS OF AN ISSUE ARE DIFFERENT RISKS FOR TEENS TODAY?

Is there significant difference between youth and parents' perception?

How serious of an issue are the following for teens today? (YOUTH, N=1060)

How serious of an issue are the following for teens today? (PARENTS, N=770)

How serious of an issue are the following for teens today? (YOUTH/red & PARENTS/green)

How serious of an issue are the following for teens today?

- differences between YOUTH/red & PARENTS/green -

YOUTH GAMBLING PREVENTION PROGRAM “Who really wins?”

*** project developed for 3 years ***

**Program is financially and organizationally
supported by:**

- Croatian Ministry of Science, Education
and Sport
- National Teacher Training Agency
- Croatian Lottery, Ltd

General Aims of the Program

prevention of
youth gambling
(minors)

development of
functional
attitudes
towards games
of chance

development of
personally
responsible
gaming in the
future

Thank you for your attention! 😊
